## All Employee Survey Learning Guide

Franklin Covey®

THE ULTIMATE COMPETITIVE ADVANTAGE

# A Note from VHA NCOD

This Learning Guide provided by Franklin Covey resource is intended to *supplement* the tools to promote All Employee Survey (AES) Data Sharing and Use provided by the VHA National Center for Organizational Development (NCOD). To maximize employee engagement by using your AES Data, NCOD recommends leading a *collaborative* action planning effort with your staff based on their identified workgroup-level AES priorities.

The resources in the AES Dashboard ([download here](#)) are designed to guide you through the process of using employee feedback to drive improvement efforts. Additionally, the [VA Leadership Canvas](#) SharePoint is a place for VA leaders to access additional best practices and data-driven solutions to making improvements in your priority area. This Learning Guide provides supplemental resources you as a leader can use to grow in your priority area, but should not replace workgroup level action planning. Gathering employee feedback from the survey and then having a conversation at the workgroup level to create unique plans to improve workplace culture maximizes survey use.

If you have any questions or concerns about how to access or understand your data, or any of the AES tools , you can contact the AES Helpdesk Here ([AES Help Desk](#)). Thanks for all your efforts to lead VA to be the best place to work!

# How to use this learning guide

- This guide contains a selection of on-demand All Access Pass resources organized around each of the ten All Employee Survey priorities. This guide include content from your Jhana website, indicated by the Jhana logo. If you aren't able to access these resources, reach out to [vacare@franklincovey.com](mailto:vacare@franklincovey.com) for support. 1

- There are three focus areas for each priority, referred to as a 'track'. A track is simply a grouping of content organized around a specific learning focus. Each track is a complete, self-paced learning experience, and it is not necessary to complete them in order. 2

- The text below each icon contains a deep link\* to that specific learning item. When you click the link, the learning item will open in your browser. (You may be asked to log-in to Jhana or the All Access Pass) 3

# Action Planning

Use this page to select specific learning tracks that address your top three AES Priority opportunities. For each priority, you will capture two things:

- **Current Situation** – what are the specific behaviors or circumstances on my team that make this priority an opportunity?
- **To improve this priority, I will** – after completing the learning track, identify two to three specific commitments to improve the current situation.
