

The **SPEED**
OF
TRUST
FOR STRONG FAMILIES

Trust is vital to our personal and interpersonal well-being. The very essence of great relationships is trust.

FranklinCovey is pleased to announce three new courses specifically designed for the military based on the bestselling book *The Speed of Trust* by Stephen M. R. Covey.

Built on proven principles and an inside-out approach, *The Speed of Trust* suite of courses for the military provides an essential framework and process to affirm, deepen, restore, and extend trust in all relationships—particularly those that mean the most to us.

Water is the vital substance that sustains all life on this planet. When it's there, everything flourishes and grows. When it's not, everything withers and dies.

The same is true for trust. Where there is no trust, efforts fail, work doesn't get done, relationships decay, and the energy and joy in all dimensions of life drop to nothing.

Like a ripple in a pond, trust starts with **you.**

Trust is a Learned Competency

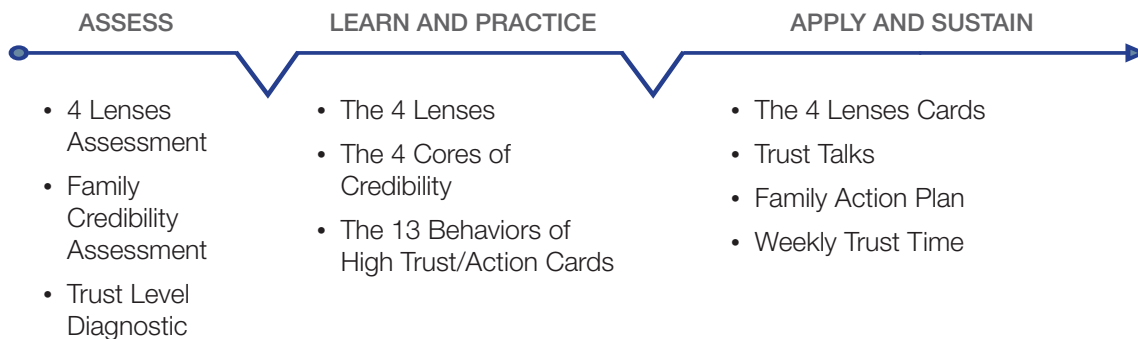

The Speed of Trust for Strong Families provides participants with engaging and powerful tools to increase trust in their most valuable relationships and to create even stronger bonds with those they love and with whom they associate.

Trust is a learned competency that can be practiced and improved. Instead of just attending a course, participants will learn to apply and sustain a new language and set of behaviors that will create lasting change and bring greater energy and joy in every aspect of their work and their lives.

“The ability to establish, grow, extend, and restore trust is vital to our personal and interpersonal well-being. The very essence of great relationships is trust.”
