## What learners say about Mohit...

*"Mohit was an excellent facilitator - he encouraged questions, mixed up the ways of participation and encouraged self- discovery throughout the course."*

*"I was really impressed with Mohit and think he did possibly the best facilitation job I've ever seen! He was respectful, detailed, thoughtful, and he moved things along and inspired conversation and collaboration."*

*"He was amazing. I enjoyed that he interacted with the group as if we were "in-person" rather than a virtual audience. He also sprinkled in some personal stories that helped me connect with him. His presentation style increased my curiosity about the material. When I saw that it was going to be 90 minutes, I thought that I would be bored. I was not and in fact, was pleasantly surprised at how fast the session went. I believe that is because of Mohit."*
