

## Executive Coach

# Kevin R. Cheesebrough

## State College, Pennsylvania

Kevin boasts an impressive career spanning over thirty-five years, characterized by exceptional leadership across diverse domains. Within the United States Navy, where he dedicated twenty-eight years, Kevin held pivotal roles, including that of an engineering officer and command of a nuclear submarine. His leadership extended to senior positions within the US Navy staff, reflecting his strategic acumen and decision-making prowess.

Following his retirement from the US Navy, Kevin transitioned into leadership roles at esteemed institutions like the Applied Research Laboratory at Penn State and SRI International in State College. During this phase, spanning a decade, he directed software engineering efforts, gaining extensive experience in business and program development, along with expertise in business operational processes.

Simultaneously, Kevin contributed to academia as an adjunct professor at Penn State's Smeal School of Business, where he imparted valuable insights into ethics for business managers. In his current coaching role, Kevin specializes in leadership and executive development. His focus areas encompass enhancing emotional intelligence, refining leadership philosophies and styles, shaping strategic perspectives, and cultivating executive presence among his clients.

## Education & Certifications

- BS Nuclear Engineering
- MS Management Science
- Certified in formal assessment tools including Hogan, Clark Wilson 360 Surveys

## What clients say about Kevin

*"Kevin created a greater awareness of my personality and reputation and how it was enhancing but also detracting from my leadership style. He then coached me in creating my leadership philosophy and style that has enabled improved leadership effectiveness and enabled more confidence." VP, Large Manufacturing Company*
